

# IPD – KTI NORDIC PROPERTY INVESTMENT BRIEFING

The changing landscape of property investment and finance: Is capital finding its way to Nordic property?

## 18 April 2012

### Marina Congress Center, Helsinki

The continuing turmoil in the European financial markets is significantly impacting the Nordic property markets. While the Nordic economies are showing relatively stable performance, they cannot sidestep the changes in the European investment environment. This eighth IPD-KTI Nordic Property Investment Briefing will answer your important questions on the Nordic property climate.

- How will the Nordic economies and property markets perform in the European context?
- What are the impacts of the crisis in the euro-zone on the Nordic property markets?
- In which markets and sectors, and in what kind of assets and vehicles, will investors target?
- How will the sources of capital develop and change in the future?

The confirmed speakers include Sabina Kalyan, CBRE Investors; Pasi Sorjonen, Nordea Bank; Marcel Kokkeel, Citycon; Simon de Chateau, Sveafastigheter, Nigel Almond, DTZ Real Estate Strategy and Alessandro Bronda, Aberdeen Asset Management.

Please save the date for this premier Nordic property event!

The final program and registration documents will be published in early February. You can book your seat already by sending your contact details to [kti@kti.fi](mailto:kti@kti.fi)

On the pulse of  
the property world
